EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview (via voicemail) with Mr. Brient (Reg. No. 44,561) on September 1, 2006.
3. The application has been amended as follows: Claims 11-20 have been cancelled.

REASONS FOR ALLOWANCE

4. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach a plastic container, which is capable of resisting permanent deformation when used in a hot fill or retort process, having a lower frustum with a larger volume than the upper frustum and an upper rim defining an opening as large as the widest diameter of the container.

The prior art containers of Nosella (U.S. D438,116), Rhodes (U.S. D379,589), Fullerton et al. (U.S. D16,389) and Bezek et al. (U.S. D447,418 S) are similar to the claimed invention because they show a container with a lower frustum having a larger volume than the upper frustum, however, none of these reference teach an opening which is as large as the widest diameter of the container. These references are also silent as to the deformation resistance and, in some cases, the material of the container.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
